RULES "CHAT ACTION FOR THE FILM"

Immagina, Associazione Culturale, is organizing the 22nd edition of the MonFilmFest

CINEMA GAMES:

Chat si gira! (Roll the Chat!) is the new game of MonFilmFest dedicated to the pre-production of a film co-written with Artificial Intelligence, launched during the 21st edition in 2023, in the midst of the heated debate of recent years. The first step will be to write, in Italian, the synopsis, subject, and screenplay of a short film with the suggestions offered by Artificial Intelligence, all within Seven Days. The Technical-Scientific Committee appointed by the Management will select SEVEN/FIVE authors who will be called to participate remotely during the MonFilmFest week, specifically from 4:00 PM on Thursday, July 4th, to 12:00 PM on Friday, July 12th. As proof of collaboration with Artificial Intelligence, we will connect with the participants daily to assess the work and interactions with Artificial Intelligence through a series of videoconferencing meetings according to a program that will be communicated during the first meeting at 4:00 PM on Thursday, July 4th. At the same time, credentials will be assigned to access the platform providing the application. The work will be monitored daily and verified based on how the participants have collaborated to develop the film's pre-production. Additionally, we will ask to attach screenshots of the chat with Artificial Intelligence when submitting the work to monfilmfest@immagina.net.

Chat is open to everyone.

To participate, send the registration form found on the website and the completed questionnaire by June 10th.
